

Wholesale 105ah 150ah 24v 36 volt pack 60v 36v 48 volt 100ah ion electric 48v lifepo4 lithium golf cart batteries

Our Product Introduction

for more products please visit us on enookbattery.com

Basic Information

- Brand Name: enook
- Model Number: Golf Cart Battery

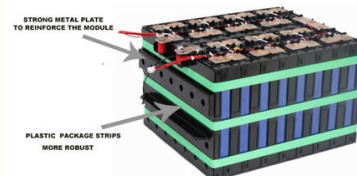

Product Specification

- Storage Temperature: 0-45
- Cycle Life: >4000 Cycles
- Availability: In Stock
- Product Name: Golf Cart Battery
- Charge Voltage: 58.4V
- Peak Discharge Current: 300A
- Voltage/Capacity: 51.2V 105AH
- Sizes: Customized
- Highlight: 100ah golf cart batteries, 24v golf cart batteries, 60v golf cart batteries

NEW DESIGN

ENOOK™

GOLF CART BATTERY MODULE STRUCTURE SAFER, ROBUST

51.2V 105AH HIGH QUALITY MODULE

Product Description:

Discover the pinnacle of golf cart battery performance with our cutting-edge Lithium Ion Golf Cart Battery, a marvel of modern engineering designed to power your golf cart with unmatched efficiency and reliability. Our 72v battery pack is not just a mere power source; it is an eco-friendly powerhouse, engineered to meet the demands of both the environmentally conscious and the performance-seeking golf enthusiasts. With immediate availability, this battery is ready to elevate your golfing experience right out of the box.

Our Lithium Ion Golf Cart Battery is a testament to our commitment to environmental stewardship. It boasts a composition that is free from the toxic heavy metals and the corrosive acids found in traditional lead-acid batteries, ensuring that your golf sessions contribute to preserving nature. The eco-friendly nature of this 72v battery pack means that you can drive across the green with a clear conscience, knowing that your choice is supporting a greener future.

With our batteries in stock and ready to ship, you won't miss a single tee time waiting for a power upgrade. The convenience of our readily available inventory ensures that your golf cart can be swiftly equipped with a 72v battery pack, delivering the immediate benefits of Lithium Ion technology to your game. Say goodbye to long waits and hello to instant gratification as you embrace the future of golf cart batteries with our outstanding product.

Our Lithium Ion Golf Cart Battery is designed to keep you on the course longer with its exceptional rechargeable capabilities. The 72v battery pack is engineered for efficiency, allowing you to quickly recharge and get back to the action without lengthy downtime. The advanced chemistry of our Lithium Ion cells means more drives, more putts, and more rounds on a single charge, ensuring that your focus remains on your swing, not your battery level.

Optimal performance of our Lithium Ion Golf Cart Battery is maintained within a storage temperature range of 0-45 . Such a specification ensures the longevity and safety of the battery, protecting it from extreme conditions that could compromise its integrity. Whether you're storing your golf cart in a warm shed or a cool garage, our 72v battery pack is designed to withstand a variety of climates, ready to serve you season after season.

One of the most remarkable attributes of our Lithium Ion Golf Cart Battery is its extraordinary cycle life. With the ability to exceed 4000 cycles, this 72v battery pack not only outlasts conventional batteries, but it also provides enduring performance that golf cart owners can rely on. The extended life span of our battery pack means fewer replacements, less waste, and more uninterrupted playtime on the course.

In conclusion, our Lithium Ion Golf Cart Battery stands as a superior choice for powering your golf cart. With its environmentally friendly design, immediate availability, rechargeable nature, suitable storage temperature range, and a cycle life that goes beyond 4000 cycles, it is clear that this 72v battery pack is an investment in both performance and sustainability. Equip your golf cart with our Lithium Ion Golf Cart Battery and experience the difference that comes with a product at the forefront of battery technology.

LiFePO4 Battery for Golf Carts(OEM/ODM Acceptable!)**TECHNICAL SPECIFICATION**

Golf Cart

LiFePO4 Battery

- Support Big Current for Climbing hills(200A/250A/300A)
- GPS Positioning
- BT monitoring / Display Screen optional
- Grade A Famous LiFePO4 Prismatic Cell
- Low Temperature Heated System
- Longer cycle life, safer
- Print your own brand**

24V/36V/72V

5 Years Warranty

Features:

Product Name: Lithium Ion Golf Cart Battery

Peak discharge current: 300A

Charge Voltage: 58.4V

Voltage/Capacity: 51.2V 105AH

Cycle Life: >4000 Cycles

Cut-Off Voltage: 40V

Weight: Approx. 40.0~50kg

Specifica	Parameter	LM48100
Nominal	Voltage	51.2V
	Capacity	105Ah
Physical	Dimension	472*334*243mm
	Weight	44.7KG
Electrical	Charge Voltage	58.4V
	Cut-Off Voltage	40V
	Continous Discharge Current	150A
	Peak discharge current	300A
Others	Working Temperature	-20-65°C
	Storage Temperature	0-45°C
	Cycle Life	>4000 Cycles

Battery Details

Technical Parameters:

Parameter	Specification
Product Name	Golf Cart Battery
Continuous Discharge Current	150A
Peak Discharge Current	300A
Weight	Approx. 44.7kg
Warranty	5 Year
Availability	In Stock
Cycle Life	>4000 Cycles
Working Temperature	-20-65
Storage Temperature	0-45
Rechargeable	Yes

Tracked by mobile phone

GPS Positioning

Optional

The batteries with GPS positioning function help for tracking the golf cars. It is very popular for golf carts leasing companies.

Over 16 Years industry experience in Lithium Ion Batteries

High Discharge Current

Customized BMS, Support High Discharge Current
150A/200A/250A/300A

Over 16 Years industry experience in Lithium Ion Batteries

Applications:

The enook Golf Cart Battery is a cutting-edge energy solution designed to power your golf cart with efficiency and reliability. As a model that boasts a working temperature range of -20-65, this lithium iron phosphate battery is versatile and robust, suitable for a wide array of applications and scenarios. One of the primary occasions for the enook Golf Cart Battery comes naturally on the golf course. Whether you are an individual enthusiast or a golf course operator, the reliability and long service life of this battery ensure that golf carts can be used extensively throughout the day without the need for frequent recharging. Thanks to its environmentally friendly composition, this battery supports the green initiatives often embraced by golfing communities.

With a weight range of approximately 40.0~50kg, this Golf Cart Battery can be easily installed in various golf cart models. This adaptability ensures that golf cart fleets, regardless of the brand or size, can be upgraded to benefit from the enook technology. Its continuous discharge current of 150A allows for consistent performance, ensuring that golf carts can handle the varying terrains of a golf course with ease. Beyond the greens, the enook Golf Cart Battery can be used in resorts, country clubs, and gated communities where golf carts serve as convenient transportation methods. Whether carting guests to their villas or facilitating the movement of staff and equipment, the battery's charge voltage of 58.4V ensures that carts run smoothly and efficiently, enhancing the overall experience of the facility.

For those who manage golf cart rental services, the enook Golf Cart Battery stands out as a reliable power source that can sustain a full day's worth of rentals. Its robust construction and ability to operate within a broad temperature spectrum make it ideal for outdoor rental operations that require batteries to withstand fluctuating weather conditions. Lastly, the enook Golf Cart Battery is also suitable for non-recreational use, such as in industrial complexes and airports, where small electric vehicles are essential for maintenance tasks and short-distance transportation. The battery's high energy density and long cycle life ensure that vehicles remain operational throughout the day, reducing downtime and increasing productivity.

In conclusion, the enook Golf Cart Battery offers a versatile and eco-friendly solution for a variety of scenarios where dependable electric mobility is a necessity. Its combination of a broad working temperature range, continuous discharge current, and suitable charge voltage make it an ideal choice for driving golf carts and other similar electric vehicles in different environments and applications.

Lithmate Can Provide Complete Battery System Solution

Charger, Voltage Reducer, Bracket, Display, Charger receptacle, etc

Customization:

Brand Name: enook

Model Number: Golf Cart Battery

Sizes: Customized to fit your specific golf cart requirements, ensuring a perfect integration with your 72v battery pack system.

Cut-Off Voltage: 40V, providing a safe operating range to protect your battery's longevity.

Charge Voltage: 58.4V, optimized for the Lithium Iron Phosphate chemistry, ensuring efficient charging cycles.

Storage Temperature: 0-45 , to maintain optimal battery performance and safety.

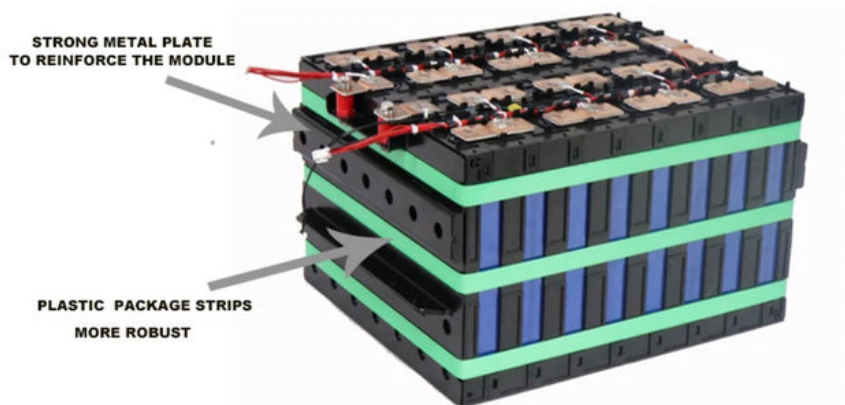

Weight: Approx. 4.0~40.0kg, a range to accommodate different sizes and capacities of the 72v battery pack.

Warranty: 5 Year, guaranteeing prolonged enjoyment and reliability of your enook Lithium Iron Phosphate golf cart battery.

NEW DESIGN

ENOOK®

GOLF CART BATTERY MODULE STRUCTURE SAFER, ROBUST

51.2V 105AH HIGH QUALITY MODULE

Ultra Safe Robust Durable Module Structure

48V 105Ah LiFePO4 Battery

Packing and Shipping:

Product Packaging: The Lithium Ion Golf Cart Battery is securely packaged in a robust, eco-friendly box designed to protect the integrity of the battery during transportation. Each battery is encased in a protective foam that fits snugly around the product, ensuring minimal movement and cushioning against impacts. Additionally, the packaging includes a safety instruction sheet outlining proper handling and installation procedures.

Shipping: Our Lithium Ion Golf Cart Batteries are shipped via a trusted courier service with a proven track record for safe and timely deliveries. Each shipment is fully insured and includes a tracking number for real-time monitoring. We take every precaution to ensure that your battery arrives promptly and in perfect condition, ready for immediate use on the golf course. Please note that due to shipping regulations for lithium batteries, we cannot ship to PO Boxes or APO/FPO addresses.

Company Introduction

ChangSha Enook Technology Co., Ltd located is an outstanding solution service provider in Lithium Battery Management System(BMS) industry, focusing on the R&D, design, production and sales of Apexium DIY kits, BMS and battereis for more than 15 years. With its strength, it can provide customers with first-class software and hardware devel- opment and after-sales services.

Quality first is our principle,Satisfying all our customers is ourtenet,win-win business is our aim.Dedicated to strict qualitycontrol and thoughtful customer service,our experiencedstaff members are always available to discuss eachdetailed requirements from customer and ensure fullcustomer satisfaction.

In addition,we have obtained certificates.MSDS UN38.3MSDS, ROHS,UL.ect. All our products keep selling wellnot onlyaround China, but also inUSA, Philippines, Germany, EnglandAustralia, Russia, France and other Europen and Asia countries Fast delivery is one of our advantage,selecting a currentproducts from catalogue,or customized products,3~5days isthe normal time to prepare for the goods,OEM & ODM orderscan be acceptable.

Please don't hesitate to contact us if you have any requirement, we'll provideour best service to you.
