### Basic Information

- Place of Origin: china
- Brand Name: Enook
- Model Number: Enook Battery Pack
- Payment Terms: TT PAYPAL

### Product Specification

- Cooling Method: Natural Cooling
- Size: 255\*165\*215mm
- Operating Temperature: -10 ~+50°C
- Capacity: 640Wh
- Working Altitude: ≤2500m
- Standard Voltage: 12.8V
- Specification: 12V50AH
- Voltage/Capacity: Customized
- Highlight: Lithium Ion Electric Bike Battery Pack ,  
12.8V Electric Bike Battery Pack ,  
20%RH Electric Bike Battery Pack

If you need a customized battery pack, the Enook Battery Pack is a great option. You can choose the voltage and capacity that you need

for your specific application, ensuring that you get a battery pack that meets your requirements.

The Enook Battery Pack is also available for OEM/ODM orders, making it an ideal choice for businesses that need a reliable and efficient battery pack for their products. With its high-quality construction and customizable features, the battery pack is an excellent choice for businesses that require a dependable power source for their devices.

Overall, the Enook Battery Pack is a top-quality lithium ion electric bike battery pack that offers excellent performance and versatility.

Whether you need a 48v 60v 72v 40ah battery pack or a customized battery pack for your specific application, the Enook Battery Pack is a great option that you can rely on.

### Features:

Product Name: Lithium Ion Battery Pack

Capacity: 640Wh

Operating temperature: -10 ~+50°C

Installation: IP65

Standard Voltage: 12.8V

Cycle life: 3000-6000 Cycles @ DOD80%/25degree/0.5C

Usage: Lithium Ion Electric Bike Battery Pack

Voltage: 48v 60v 72v

Capacity: 40ah Battery Pack

## 24V SERIES

50Ah/100Ah/200Ah

### Applications:

The Enook Battery Pack is a reliable and powerful source of energy for your electric bike. With a net weight of 9KG, it is lightweight and easy to handle. The product size is 255\*165\*215mm, making it a compact and space-saving option. The battery pack has a working humidity of 65+-20%RH and an installation rating of IP65, making it suitable for use in various weather conditions.

The Enook Battery Pack is a 12V50AH Lithium Ion battery pack that provides long-lasting power to your electric bike. It is ideal for people who use their electric bikes for commuting, touring, or recreational purposes. With this battery pack, you can ride your electric bike for long distances without worrying about running out of power.

Enook Battery Pack can be used in various scenarios, such as:

- Lithium Ion electric bike battery pack
- Lithium Ion electric scooter battery pack
- Lithium Ion electric vehicle battery pack

Whether you are commuting to work, running errands, or going on a long-distance ride, the Enook Battery Pack provides the power you need to get there. It is easy to install and can be used with various electric bike models. The payment terms for this product are TT and PayPal, making it easy for customers to purchase.

### Customization:

Enook offers product customization services for the Enook Battery Pack, a high-quality lithium ion electric bike battery pack with a capacity of 640Wh. The battery pack is available in 48v, 60v, and 72v options with a 40ah capacity. The Enook Battery Pack is designed for easy installation with an IP65 rating, making it suitable for outdoor use. The battery pack has a net weight of 9KG and can work at altitudes up to 2500m. Enook Battery Pack is manufactured in China and payment terms are available through TT and PayPal.

### PRODUCT COMPOSITION

IP65

A Grade Lifepo4  
Battery Cell ABS

Flame  
Retardant  
Waterproof  
Housing

## Support and Services:

---

The Lithium Ion Battery Pack product comes with technical support and services to ensure optimal performance and safety. Our team of experts provides assistance with installation, configuration, and troubleshooting of the battery pack.

We also offer regular maintenance and repair services to keep your battery pack functioning at its best. Our services include battery testing, cleaning, and replacement of faulty components.

In addition, we provide consultation services to help you select the right battery pack for your specific needs. Our team can assist with determining the appropriate voltage and capacity requirements for your application.

For any questions or concerns about our Lithium Ion Battery Pack product, please do not hesitate to contact our customer support team.

## Packing and Shipping:

---

### Product Packaging:

The Lithium Ion Battery Pack will be carefully packed in a sturdy cardboard box to ensure safe delivery.

The box will be labeled with the product name, weight, and handling instructions.

Inside the box, the battery pack will be wrapped in bubble wrap and secured with foam inserts to prevent any movement during transit.

### Shipping:

The Lithium Ion Battery Pack can only be shipped via ground transportation due to safety regulations.

Shipping cost will be calculated based on the destination and weight of the package.

Shipping time may vary depending on the destination, but typically takes 3-5 business days within the United States.

## PACKAGING

### PACKAGING

### Shipping by

Professional suggestion to choose the best shipping delivery (Such as EMS DHL TNT UPS and FEDEX) for your commodities according to your demand.
